

LCR-70.0M

Implementation:	Launch boat from BL-LCR-72.7R with shallow water skiff and 600' of boom on board. Use skiff to anchor on either side of the inlet using shoreside anchor systems or natural features. Anchor along boom line every 100-150' using Danforth or other appropriate anchor types based on conditions of the day.
------------------------	--

Site Safety: Slips, trips, and falls. Water hazards. Pilings and submerged debris present in area.

Field Notes: Boat access only. Slough entrance is very shallow.

Resources at Risk: Wetland Habitat

5	Each	Anchor - Danforth (or other appropriate type)
2	Each	Anchoring System(s)- Shoreside
600	Feet	Boom - B2 (Contractor Boom) or equivalent
1	Each	Workboat(s) - of adequate size for type and amount of boom
1	Each	Workboat(s) - (jon boat)
