

**Willamette River - Oswego Creek (OR)****WR-21.1L-N**

**Position - Location:** 45° 24.614', -122° 39.654' 45° 24' 36.9", -122° 39' 39.2" 45.41024, -122.66090 Lake Oswego

**Strategy Objective:** Notification : Notify Lake Oswego Corporation to close locks and prevent transfer of oil from Lake Oswego to Willamette

**Implementation:** Call Lake Oswego Corporation to notify them of a spill potentially impacting Lake Oswego.

**Field Notes:** Lake Oswego Corporation manages the water level in Lake Oswego with a floodgate.

**Watercourse:** Lake - Lake Oswego

**Resources at Risk:** Downstream Resources

**Communication Process and Action:**

Call Lake Oswego Corporation to notify them of a spill that could impact Lake Oswego and its outlet to the Willamette River. They will make the determination whether to close the flood gate and prevent flow from the lake to the Willamette River.
