

**Multnomah Channel - Sauvie Island Restoration Site****MC-0.4**

**Position - Location:** 45° 37.212', -122° 48.029' 45° 37' 12.7", -122° 48' 1.7" 45.62020, -122.80048 Portland

**Strategy Objective:** Exclusion : Exclude oil from restored habitat.

**Implementation:** Anchor 500 ft section of boom to shore near A. Extend boom downstream along shore and anchor near B. Use natural anchors or shoreside anchoring posts. Adjust as needed for conditions.

**Staging Area:** Remote: Stage and launch across channel at Fred's Marina, SA/BL-MC-1.0

**Site Safety:** Slips, trips, falls. Shallow water. Submerged pilings.

**Field Notes:** Multnomah Channel at entrance to new restoration site on Sauvie Island. Across river from marina with private vessels and houseboats along south shore of channel.

**Watercourse:** River - Side Channel - Multnomah Channel

**Resources at Risk:** Habitat Restoration Site/Project, Waterfowl and Salmonid Concentrations and Habitat
