

LCR-111.0R

Strategy Objective: Collection : Use jetty to collect oil travelling downstream on the Columbia River.

Implementation:	From BL-LCR-108.4R, Crew 2 launch workboat to strategy site. Crew 1 stage 900ft. boom onshore and transfer line attached to boom to Crew 2 using line throwing gun. Crew 1 use power winch to pull boom to AP-2 in river center to create steep collection angle; anchor using Danforth or other appropriate anchor and anchor every 100-150ft. along boom length or as appropriate for flow conditions. Crew 1 use shoreside anchor posts to anchor at AP-1 downstream of boat ramp. Collect oil using skimmer staged on ramp.
------------------------	---

Staging Area: Onsite: Stage onsite at community park.

Site Safety: Slips, trips, and falls. Rail traffic adjacent to site and very low/narrow railroad bridge. Beware of pilings and submerged hazards.

Field Notes: Site is a private park owned by the Hillcrest Community Club. Gate is unlocked, but access is restricted to community members and guests.

Watercourse: River - With Tidal Influence - Columbia River

Resources at Risk: Downstream Resources, Economic Resource, Economic Resource, Habitat and Waterfowl, Public Recreation Site/Area

Recommended Equipment

8	Each	Anchor - Danforth (or other appropriate type)
1	Each	Anchoring System(s)- Shoreside
900	Feet	Boom - B2 (Contractor Boom) or equivalent
1	Each	Line throwing gun(s) or device(s)
1	Each	Vac Truck or Skimmer and Storage
1	Each	Winch - Power Winch
1	Each	Workboat(s) - of adequate size for type and amount of boom

Recommended Personnel

1	Boat Operator
4	Laborer
1	Supervisor
